

Instructions

Please insure that all of the files that were extracted from the .zip file are all in the same folder.

1. Close NinjaTrader
2. Right Click on the Windows Icon and select Installed Files
3. Locate Essential Addon Suite (if it does not exist, move to step 5)
4. Click on the ellipsis (3 dots) and select Uninstall

5. In the folder where you extracted the .zip file, locate and double click on the InstallEAS_withLog.cmd file.
6. The EAS Installer will start. Enter the email address you registered with and hit Next.
7. If you previously received the Essential AddonSuite Setup Wizard ended prematurely message, you should receive it again here. Hit Finish to exit.

8. In the folder that you ran step 5 from, you will now see a file called Logger.log
9. Attach the file to an email to support@theintentionaltrader.com
10. We will review the content of the log file and get back to you soon.
